## RE-ELECT COLLINS, JACOBS AND JOHNSON

# *Our best hope for the future.*

- The politicians and special interest groups want to take over control of our schools. We can't allow that to happen. By re-electing Johnson, Collins and Jacobs, we'll protect the gains we've made. Gains that have reduced the size of the average classroom. Gains that have meant hundreds of new teachers. Gains that have extended the school day to give struggling students the extra attention they need.
- Because of the efforts of Jacobs, Collins and Johnson, every single Buffalo school is being rebuilt or rehabilitated. Over \$1 billion to create a working environment that helps our children learn and our teacher's teach. State-of-the Art classrooms with Internet for every single child.

*The future of our schools is on the line. We have three proven leaders running for re-election who will always put our children first.*

*Re-elect the three Board members who care about our kids...*
